portable version of the atomic mail sender program. an amazing program, capable of sending a lot of attachments at one time. this program must be run in a background. it is a must have for cyber thieves! you can reach this program " drivecrowd.com ". the program uses a built-in http "loop file", creates an infinite threads to send the files simultaneously! atomic mailsender is a multi-threaded e-mailer for the windows operating system that is designed to simultaneously send and receive emails. using a small sample of ms exchange, it is capable of sending emails, copy and pasting html e-mails, ftp files and attachments in zip, rar, 7zip, split and others formats. a multithreaded mail sender program for windows platform. this program is very easy to use. it has the ability to send e-mails, attachments in variety of formats. it is a must-have application for net users. once you have placed a link to a program in your site or bookmarks it will find for you later. using this tool you will never be without internet e-mail. multi-threaded mail sender program for windows platform. this program is very easy to use. it has the ability to send e-mails, attachments in variety of formats. it is a must-have application for net users. once you have placed a link to a program in your site or bookmarks it will find for you later. using this tool you will never be without internet e-mail. the kishinjya nuclear power plant was returning from being shut down for maintenance, but just minutes after returning to service, experienced a power outage. a spokesperson for the international atomic energy agency told the associated press the nuclear power plant in tajikistan is operating under reduced capacity. about 20,000 people live within 10 kilometers of the nuclear power plant, which is located about 1,200 kilometers north of dushanbe, the capital.

The International Atomic Energy Agency (IAEA) also said that the situation was critical at a nuclear power plant in the Khmelnytsk region, north-west of Dnipropetrovsk in the middle of Ukraine. It comes as EU leaders agreed at a summit in Salzburg to deepen support for Ukraine, but also publicly criticised Russia in a strongly worded joint statement for supporting separatists in the war in eastern Ukraine. Ukraine has been in a state of emergency since May, with martial law in 10 of its 26 regions and 250,000 people killed in the conflict, most by Russian-backed separatists. Russian ground troops are fighting within several kilometers of the nuclear plant and are moving directly towards the site, Ukraines nuclear regulator told the International Atomic Energy Agency, a situation Ukrainian officials called critical. The IAEA said in a press release the Russian military broke through the block-post outside the town of Energodar, and fighting is now ongoing in the town and on the road to the nuclear plant. On Wednesday, a crowd of civilians had blocked Russian troops from entering Energodar. The International Atomic Energy Agency (IAEA) passed a resolution condemning Russias invasion of Ukraine on Thursday and called on Russia to immediately cease actions at Ukrainian nuclear sites, according to AFP and Reuters. Twenty six countries on the board of the UNs nuclear watchdog supported the resolution, five abstained (India, Pakistan, Senegal, Vietnam and South Africa) and two (Mexico and Burundi) were absent. Just two voted against the resolution: Russia and China. 5ec8ef588b
