In SQL Server Configuration manager I can see the database: A: When you use CREATE DATABASE statement to create a new database, you must specify a server, database name, login, and login's password. So, if you want to use your database, you must login into the SQL Server Express

first, and try to access your database, like this: CREATE LOGIN [user] WITH PASSWORD = 'password' GO USE [db1] GO CREATE USER [user] FOR LOGIN [user] GO You should also make sure that your server configuration contains a user named as login you tried to use. "Any time you're faced with a crisis, you want to try and turn everything into a learning experience," says U.S. Olympic kayaking team kayaking head coach Jeff Booker. "You want to be able to leave everything on the mat, and you want to learn more about your competitors as well as the kind of coaching environment you're competing in." Every member of the team gave Coach Booker a welcome gift, one that belonged to them. "Our gift-givers for 2016 are certainly a testament to the spirit of our team and the generous nature of our alumni," says Coach Booker. "The 2016 team gift-givers are all current or former USPA members. They are alumni, current or former collegiate athletes, and professional athletes. They are all leaders in their respective fields. Some are an inspiration to us, some are competitive and wanting to be a part of the 2016 team." Many of the athletes submitted gifts that would allow the team to travel to Romania for the Games.
