Category:EquipmentQ: Visual Studio 2013 Creating a new c# program I'm trying to create a new c# program in visual studio 2013. But the option to create a new c# program is not available. My previous version of visual studio (2013) was the only one to have this option. Am I missing something? A: You need to install the C# and Visual Basic Extensibility Tools. You can do this by going to Tools > Extensions and Updates. Once this is installed, you'll be able to create new C# and Visual Basic Projects. If you are looking to create a Web Project, then you should also install the Visual Studio Web Development Kit. You can do this by going to Tools > Extensions and Updates again.
