The story of Sudoku Zenkai is about the day Senpai gave me the wonderful project, after finding my Sudoku Zenshoku(an older man in Kyoto about 100 years old) a couple of years ago. I found many sentences from "My Father's Diaries" in his match box which he hid long ago. After many tedious days of studying, I finally made up my mind to create my very first proper and full-length original story, with dialogues and voice acting. In fact, the voice acting was not just used for effect, but was a very important portion of the story. In that way, I hope that you can learn not only about Sudoku Zenkai, but also the story behind it. Have fun playing! Ono's ZENKAI is a rhythm action game for the PlayStation Vita, with a goal to make a game which most gamers have not played before, by making something with ease of play, easy-to-control rhythm action. InTOYZEN is a task game. Think "STRAWBERRY PI" game. Rules: Reduce the number of rays of this labyrinth, it will be release because a special program before the game, So don't guess, don't use your brain, think like a robot and choose the minimum from the ray. But the number of rays that can be chosen is really small. Don't let your little child pick the ray by itself. Then we will send one three-star magazine to you. Don't let your dog or cat pick a ray by itself. When you choose the maximum ray, let yourself know by answering a phone call or the door bell, we will send a \$300 prize to your mailbox. You can earn your prize by completing all three stars. Good luck and have fun. Lunar is a solitaire word game,

---

where we use a modified version of the matrix of games: You can also play with a standard deck of cards, or even a deck from a real game! To play the game, you need to solve a puzzle with
