As a long time Skyrim fan, I just want to say thank you to Bethesda for their amazing work on the game and the modding community for all the hard work and effort. I still remember the day I first played Skyrim on Xbox, and I've been hooked ever since. It's gone on to become one of my favorite games of all time, and although I've played it on all platforms multiple times, it's on PC where I have the most fun. July 01, 2020 20:21 GMTSkyrim is a game that's equal parts fun and frustrating. The mindless jumping and shooting that's required to get through each area is usually fine, but it can get really annoying when a guard or some new creature decides that they're going to be a thing to avoid. And I know the magic system doesn't make it very useful to level up for every level, but I'm not interested in leveling up for the benefit of leveling up. So what do I do? The Witcher 3: Wild Hunt.
