### What's New in the?

YouTube Playlist Generator is a lightweight utility for video organizers. It allows you to create playlists to share your favorite YouTube clips with your family, friends, or even upload them to your blogs, websites, or social networks. 2. Details: YouTube Playlist Generator is a portable application for Windows and comes packed with two main functions: Create playlists and organize your favorite YouTube videos. 3. Features: YouTube Playlist Generator has a clean and simple interface and requires only a few settings to get the job done. The application is portable and doesn't require an installation; it can be loaded from any USB drive or similar type of media to have it with you at all times. No shortcuts are left on the host computer so you can easily remove it using a simple deletion task. Organize your clips by creating playlists with different titles so you can keep your favorite content in one single place. If you have a YouTube account, you can add and remove videos from the playlist without wasting time. The playlist creator is a nice tool for this purpose. In addition, you can check out a list with all the playlists you've created. The program offers a player where you can play the content of the selected playlist. You may use custom hotkeys to navigate through the playlists. You may create multiple playlists or delete any of them. Quick search, bookmarking and download options are included to streamline the operation even further. Create playlists and organize videos in no time Well organized and easy to use 5. Problems: - Stability - Doesn't support HTML5 - The code doesn't allow playlists with more than 9 songs 6. Recommendations: Download YouTube Playlist Generator and discover how it can make your life easier. Twitter: Facebook: iTunes: Other Websites: Google Plus: 8. Final Words: YouTube Playlist Generator is a versatile video playlist manager which can help you build a personalized collection of your favorite YouTube videos. 9. Conclusion: If you do not have an account on YouTube, you can use YouTube Playlist Generator to create custom playlists which can be controlled from the comfort of your desktop with custom hotkeys. Other Stuff: Software for a lifetime: Legal Disclaimer: Video Player:
