System Requirements:

The picture shown in the above screenshot is for demonstration purposes only. The actual size of the image and its resolution is dependent on the size of the monitor you are using. We also highly recommend using two monitors if you're going to be playing this game. Please make sure to read our tips and tricks section for more information about how to set up your PS4 system. Playing on Xbox One can also be tricky and we would recommend using two monitors. The game will stream video from your console's hard drive, so having a high-speed connection to the internet is highly recommended
