Autodesk Exchange Apps Autodesk Exchange Apps, which are applications created by third-party developers, are a major source of AutoCAD's growth and continued expansion. Autodesk Exchange Apps are developed in Microsoft.NET Framework and C# (for example, AutoCAD Architecture and ACES Pro). Autodesk Exchange Apps are also available for AutoCAD LT, which are generally identical to their AutoCAD counterparts, except for some minor differences in the UI. A major difference with Exchange Apps and the add-on Autodesk Exchange plugin is that it is only for adding AutoCAD functionality to another program. One example of this is that the company that created the ArcGIS Viewer plugin for AutoCAD LT has a branch of ArcGIS that is built specifically for AutoCAD LT. A number of the Exchange Apps are based on the AutoCAD architecture. Some of these Exchange Apps are: AutoCAD Architecture Exchange (newstand app) AutoCAD Electrical Exchange (newstand app) AutoCAD Civil 3D Exchange (newstand app) AutoCAD LT Exchange (newstand app) ACES Pro Exchange (newstand app) AutoCAD Copy/Paste Exchange (newstand app) GraphicPilot Exchange (newstand app) n-Trace™ AutoCAD Exchange (newstand app) A book, AutoCAD Exchange, was published to introduce the Exchange Apps and their features.
