

---

Horstmann - Author of the classic two-volume Core Java, this indispensable tutorial offers a faster and easier way to learn modern Java. Considering Java SE 9.x, this book is a comprehensive guide to modern Java standards and technologies. It offers a fast and easy way to learn modern Java technologies. There are a couple of exercises at the end of each chapter for deeper study. The exercise is an independent work of students, which allows them to develop the acquired skills in order to gain programming skills. This book is for intermediate to advanced programmers.
