## ImTOO iTransfer Platinum Crack + PC/Windows

iTransfer Platinum is the first cross-platform and versatile software solution that allows you to enjoy an unlimited number of Apple iOS and Android devices from your PC. iTransfer Platinum allows you to make a quick backup of your device, while on the other hand, this software gives you the possibility to restore your iOS device to a factory settings state. You can do this without losing any data on the device or on the iTunes backup. Supported If you are looking for a reliable tool to manage your iTunes library, you should take a look at this application. Once you install this software on your Windows-based computer, you can use it to burn iTunes songs to CDs, rip iTunes music and create iTunes playlist. Advantages: - Works with Windows 7, Vista, XP, 2000 - Free of charge - Transfer file size up to 50 GB - Support several formats: Apple Lossless, Apple Lossless 256, Apple Lossless 256kbps, Apple Lossless 64kbps, Apple Lossless 64, Apple Lossless 44.1kbps, Apple Lossless 64kbps, MP3 256, MP3 320, MP3 WMA and MP3 FLAC Disadvantages: - Some users complain that the software does not enable them to play iTunes music files on their mobile devices. - Not all the video files will play on the portable device. There are a number of iTunes backup utilities in the market, however most of them work with a limited number of devices. This is a good news if you have a lot of iOS devices and you want to protect them from iTunes migration and this way to prevent the files from getting lost. You will be able to make iTunes backups of the device without the risk of losing any files. This product, on the other hand, offers an iTunes sync solution to users with iPhone or iPad devices. You will be able to synchronize them with the computer and exchange the data with iTunes. How to Use iTunes to Backup iPhone or iPad to PC with iMEGA Data Backup? Step 1: First of all, you need to connect your iOS device to the PC using the USB cable provided. Step 2: Then, you need to launch the iMEGA Data Backup software. Step 3: After a few minutes, iTunes will launch automatically. Step 4: Once you connect the device to the iTunes, you need to do a backup. Step 5: After that, close the iTunes and unplug the device
